## TPEs make the grade for safe food packaging

**KRAIBURG TPE, a global TPE manufacturer of a wide range of thermoplastic elastomer products and custom-engineered TPE solutions offers the THERMOLAST® K FC/CM1 and FC/CS series that meet the safety and design criteria for food packaging and containers.**

Food waste poses a global economic, social and ecological loss. The Food and Agriculture Organization (FAO) reported that the economic impact of food waste is about US\$1 trillion a year and costs the environment US\$700 billion a year. The good news is food waste can be prevented with the right packaging design. Latest packaging innovations are providing more solutions to food and material safety. Food-safe thermoplastic elastomers (TPEs) are now widely used in the food packaging industry. They protect the contents from biological and chemical contaminants, as well as prolong shelf-life of food products, and making them safe for consumption.

## Who is an entrepreneur?

"Entrepreneur is a person who takes risk as a leap frog and establishes an enterprise that will provide a product or service the society needs. NC Narayanan, the Mentor and management guru explains in this video 'how to sharpen one's entrepreneur skills to build an institution'. Understand the true meaning of becoming an entrepreneur which is beyond merely making money but to build an institution that will last for ever.
