AIPMA-AMTEC EXCELLENCE AWARDS 2022

1st July, 2022 | [Register Now](#) - [Click Here](#)

AIPMA-AMTEC is launching an initiative of giving recognition to excellence in the Plastic Industry, "AIPMA-AMTEC Excellence Awards 2022".

The awards have been categorized as under:

1. Startup India - "Best start-up in Plastic sector"
2. Atmnirbhar Bharat - "Best import substitution plastic product"
3. Speed to market - "Fastest product development"
4. Technology Leadership

All companies will go through a three-tier evaluation process covering - Document Assessment of all applicant & Jury Evaluation to finalize the Awardees. The awardees would then be felicitated by Award & Honor bestowed by Distinguished Leaders during Technology Summit for Advancement in Plastic Industry in New Delhi on 1st July 2022.

UPCOMING PROGRAMS

AMTEC DESIGN LAB - POWERED BY SIEMENS

22ND JUNE, 2022 | 75 HOURS COURSE (3 Months)

WEEKDAY BATCH TIMINGS - Mon, Wed & Fri - 7:00 PM to 9:00 PM

SPECIAL WEEKEND BATCH TIMINGS - Saturday - 4:00 PM to 7:00 PM | Sunday - 10:00 AM to 1:00 PM

AIPMA established AIPMA's AMTEC - 'Centre of Excellence for Plastics Product Innovation and Application' in 2021 with a vision to promote high quality knowledge and industrial services for rapid growth of the plastics and its application industry. Major areas of interventions are Reverse Engineering, Product Designing and Development, Plastics packaging and industrial management programmes. The Centre of Excellence helps the Industry in reducing overall time to design, develop and rapid roll out of products thereby increasing speed to global market. The Centre helps the industry to graduate from Micro to Small,

Inauguration Ceremony of the AMTEC Product Design Lab and Technology Demonstration Centre 22ND JUNE, 2022

Technology Summit for **ADVANCEMENT OF PLASTIC INDUSTRY** 1st July, 2022 | 09:00 AM - 06:00 PM @ India Habitat Centre, New Delhi

“Rising product demand from the construction, automotive, and electrical and electronics sectors is the key factor driving the market growth.”

Over the past few years, several new trends have emerged which continue to be refined and amplified within the Plastic Industry. New Plastics which are introduced, are not only safe to dispose but are also energy-efficient and emit less toxic radiations. Technology and Innovative minds are shaping up the sector and it is important to understand the recent trends.

In the last five years, India's Plastic Industry has grown tremendously by 13 percent annually and similar growth is expected even in the near future. At present, there are over 50,000 registered plastic processing units, 85-90% of which are small and medium-sized enterprises. The Plastic Industry contributes to almost every daily requirement of a human being whether it is Clothing, Construction, Housing, Automobiles, Household items, Furniture, Agriculture, Medical Appliances, Horticulture, Irrigation, Packaging, Electronics and Electrical items, etc.

Plastic delivers many direct economic benefits and can contribute to resource efficiency. It reduces food waste by increasing shelf life, and its relative light weight reduces fuel consumption for transporting goods.
