AMTEC AT WORK

Report on Plastivision India 2023

PVI 2023, we invited college students, faculties and dignitaries to showcase the plastic industry to them and the potential that this industry holds for near future. The exhibition was a huge help for AMTEC as it gave us the chance to highlight our courses and services.

For the 1st three days of exhibition, only industries were allowed to visit and last 2 days were reserved for students.

A batch of 19 Students launched under CSR Project for 3D Printing Course

AIPMA's Arvind Mehta Technology & Entrepreneurship Centre (AMTEC) has started skilling project under CSR obligation. In this project AMTEC team has planned to provide skilling to the students who are from weak financial backgrounds and can't afford to enrol for extra courses apart from normal education. This project will make these students industry ready with the latest technologies and software and will receive placements once they finish off their training.

[Read More](#)

On 12th December, AMTEC was visited by Mr. Pankaj Yadav, Councillor - VP NorthWest District.

He showed an interest in getting around 20 students trained in our six month product Design course and further getting those students placed as interns within the plastic industry. He also promised to encourage companies to support such endeavours through their CSR system.
